

Do you want to help someone start their career?

Apprenticeships and work experience placements have a proven track record of encouraging bright and enthusiastic young people into the refrigeration and air conditioning industry. It is vital that new people join our industry and your company can help. If you accept work experience placements or recruit apprentices please let us know so that we can put those looking to gain experience of the refrigeration and air conditioning industry in touch with you via the careers in cooling website.

From research carried out by the Institute of Refrigeration it has been discovered that a major stumbling block for apprentices is the difficulty of finding companies prepared to employ them. If you recruit even one apprentice a year please complete the form below so that apprentices can contact you when looking for employment .

We recruit apprentices

We accept work experience placements

and are willing to have the contact information provided below added to the careers in cooling website.

Company

name: _____

Contact

name: _____

Address: _____

Address: _____
